**DETAILED ACTION**

***Allowable Subject Matter***

Claims 11-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The Applicants canceled claims 1-10, according to the Amendment received 2/03/2005, added new claims 11-12, and presented arguments in favor of allowance of the existing claims.

As to Claim 1, the prior art of record taken along or in combination, fails to disclose or render obvious a single detector paired with the converging lens to detect the detecting light after the detecting light passes through a thermal lens generated in the fluid sample by the convergent irradiation of the exiting light, and synchronizing device which synchronizes an output signal of the detector with the modulation of the existing light by the modulator, in combination with the rest of the limitations of the claim. (see disclosure in the specification s at page 9, lines 19-34, page 10, lines 14-27, page 12, lines 9-11, page 16, lines 22-31, and page 17, lines 2-5)

The dependent Claims 2-22 are allowed by virtue of their dependence upon Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
